

発表論文一覧

1. Takuya Sueishi, Yukio Akasaki, Norio Goto, Ichiro Kurakazu, Masakazu Toya, Masanari Kuwahara, Taisuke Uchida, Mitsumasa Hayashida, Hidetoshi Tsushima, Hirofumi Bekki, Martin K. Lotz, Yasuharu Nakashima, GRK5 Inhibition Attenuates Cartilage Degradation via Decreased NF- κ B Signalling, Arthritis and Rheumatology, 2020 Apr;72(4):620-631.
2. Takuya Sueishi, Takeshi Arizono, Kenjiro Nishida, Takahiro Hamada, Akihiko Inokuchi. A Case of Spontaneous Regression of Recurrent Desmoid Tumor Originating From the Internal Obturator Muscle After Delivery, World journal of oncology, 7(4):75–80, 2016.
3. 居石卓也, 田代泰隆, 岡崎賢, 崎村陸, 水内秀城, 濱井敏, 岩本幸英.
骨欠損を伴う膝の高度変形や破壊に対し, 骨補填材料を併用して人工膝関節置換術を行った症例の検討, 整形外科と災害外科, 63(2):336–339, 2014.
4. Kuwahara M, Akasaki Y, Goto N, Kurakazu I, Sueishi T, Toya M, Uchida T, Tsutsui T, Hirose R, Tsushima H, Nakashima Y. Fluvastatin promotes chondrogenic differentiation of adipose-derived mesenchymal stem cells by inducing bone morphogenetic protein 2. BMC Pharmacol Toxicol 23:61, 2023
5. Uchida T, Akasaki Y, Sueishi T, Kurakazu I, Toya M, Kuwahara M, Hirose R, Hyodo Y, Tsushima H, Lotz MK, Nakashima Y. Promotion of knee cartilage degradation by I κ B kinase ϵ in the pathogenesis of osteoarthritis in human and murine models. Arthritis Rheumatol 75:937–49, 2023
6. Kuwahara M, Akasaki Y, Kurakazu I, Sueishi T, Toya M, Uchida T, Tsutsui T, Hirose R, Tsushima H, Teramura T, Nakashima Y. C10orf10/DEPP activates mitochondrial autophagy and maintains chondrocyte viability in the pathogenesis of osteoarthritis. FASEB J 36:e22145, 2022

7. Toya M, Akasaki Y, Sueishi T, Kurakazu I, Kuwahara M, Uchida T, Tsutsui T, Tsushima H, Yamada H, Lotz M K, Nakashima Y, G protein-coupled receptor kinase 5 deletion suppresses synovial inflammation in a murine model of collagen antibody-induced arthritis. *Scientific Reports*, 11(1): 10481, 2021
8. Kurakazu I, Akasaki Y, Tsushima H, Sueishi T, Toya M, Kuwahara M, Uchida T, Lotz M K, Nakashima Y, TGF β 1 signaling protects chondrocytes against oxidative stress via FOXO1–autophagy axis. *Osteoarthritis and Cartilage*, 29(11): 1600-1613, 2021
9. Ichiro Kurakazu, Yukio Akasaki, Mitsumasa Hayashida, Hidetoshi Tsushima, Norio Goto, Takuya Sueishi, Masakazu Toya, Masanari Kuwahara, Ken Okazaki, Duffy T, Lotz M K, Yasuharu Nakashima, FOXO1 transcription factor regulates chondrogenic differentiation through transforming growth factor β 1 signaling, *J Biol Chem*, 294(46): 17555-17569, 2019
